MBA candidate at Sheffield Hallam University with a background in Computer Science and Engineering and professional experience in product engineering and technical writing. Experienced in product roadmapping, market research, stakeholder collaboration, and customer-facing product demos across global contexts. Seeking a one-year sandwich placement where analytical thinking, communication, and business strategy can drive customer-centric outcomes.

WORK EXPERIENCE

Delta Adhesives Limited

Marketing Intern (Part-Time)

Barnsley, UK

Feb 2026 – Present

- Responsible for the marketing strategy work
- Involved in a thorough review of all existing documentation and online systems
- Updating and maintaining their WordPress website

Subconscious Compute Pvt. Ltd.

Product Engineer

Bangalore, India

Jul 2023 – Nov 2024

- Spearheaded the creation of product roadmaps, aligning business objectives with user needs and market trends.
- Conducted market research and analysed customer feedback, driving feature prioritisation and enhancing user satisfaction.
- Led product demos at global events, including GISEC (Dubai) and CyberX Roadshow (Bangalore), fostering customer trust and partnerships.
- Supported ISO 27001 compliance initiatives by documenting security controls, assisting with policy alignment, and contributing to internal compliance reviews.
- Collaborated with technical and non-technical stakeholders to ensure adherence to information security standards and operational best practices.

Technical Writer (Intern)

Feb 2023 – Jun 2023

- Improved internal workflows by developing tools like the GitLab-to-Notion integration bot.
- Authored technical documentation and marketing content, enhancing the product's visibility and user comprehension.
- Assisted in product demos and developed engaging communication strategies for prospective clients.

BrandsAdvert

Content Writer (Part-Time)

Remote

Jul 2022 – Nov 2022

- Created and scheduled content for multiple client social media accounts, ensuring brand consistency and alignment with campaign objectives.
- Tracked and analysed social media performance metrics, including reach, engagement, and follower growth, to evaluate content effectiveness.
- Supported client account management by monitoring trends and optimising content strategies to improve audience engagement.

Ohana Academy

Content Manager (Intern)

Remote

Sep 2021 – Apr 2022

- Managed end-to-end content for an ed-tech learning platform, including weekly updates to class schedules, course listings, and publicly available documentation.
- Designed and maintained live class timetables across academic subjects and extracurricular activities, coordinating with tutors to ensure accurate and timely delivery.
- Moderated live online classes to support smooth session delivery and learner engagement, acting as a liaison between tutors and the platform.

MentoMeet

Head of Operations (Part-Time)

Remote

Dec 2020 – Jun 2021

- Led operations for a nationwide mentoring startup supporting JEE/NEET aspirants, overseeing content management, programme coordination, and day-to-day execution.
- Conducted weekly cross-functional team meetings with technical and non-technical teams to track progress, address issues, and align on operational priorities.
- Served as a JEE mentor, delivering academic guidance and mentoring sessions while supporting student engagement and programme quality.

MiBi Services Pvt. Ltd.

Remote

Content Writer (Intern)

Feb 2021 – Apr 2021

- Created marketing and SEO-focused written content to support social media campaigns and digital marketing initiatives.
- Conducted market and keyword research to optimise content for search visibility and audience engagement.
- Collaborated with marketing teams to ensure content aligned with broader branding and communication strategies.

Contentzy

Remote

Content Writer (Intern)

Jan 2021 – Feb 2021

- Produced researched written content tailored to client requirements, ensuring clarity, accuracy, and relevance.
- Applied basic SEO principles to improve content discoverability and alignment with search intent.
- Supported editorial workflows through research and content refinement.

Hosting Spell

Remote

Content Writer (Intern)

Nov 2020 – Feb 2021

- Authored technical content related to programming concepts, web technologies, and hosting services, translating complex topics into accessible documentation.
- Researched and wrote SEO-optimised technical articles to improve knowledge sharing and online visibility.
- Worked with technical subject matter to ensure accuracy across content involving Python, Java, C/C++, HTML, and data structures.

PROJECTS

Business/Strategy Project

MBA Integrated Consultancy Project (ICP), Sheffield Hallam University (Best presentation award)

Nov 2025 – Dec 2025

- Developed data-backed recommendations to improve performance and user outcomes
- Presented insights to stakeholders, translating complex data into clear business actions
- Collaborated cross-functionally to align ideas with execution feasibility
- Received a direct internship opportunity with the company post presentation

Business Strategy Portfolio: Duolingo

MBA Academic Project, Sheffield Hallam University (Distinction)

Sep 2025 – Jan 2026

- Conducted a comprehensive analysis of Duolingo's business model, competitive positioning, and growth strategy within the global ed-tech market.
- Evaluated product strategy, user engagement mechanisms, and monetisation approaches using established business and marketing frameworks.
- Developed strategic recommendations focused on market expansion, customer retention, and long-term scalability.

Business and People Practices Portfolio: NVIDIA

MBA Academic Project, Sheffield Hallam University (Distinction)

Sep 2025 – Jan 2026

- Analysed NVIDIA's organisational culture, people practices, and leadership approach during a period of rapid growth and innovation.
- Assessed employee wellbeing, motivation, and performance management through the application of organisational behaviour and management theory.
- Proposed evidence-based recommendations to balance high performance with sustainable people practices.

Python GitLab-to-Notion Integration Bot

Subconscious Compute Pvt. Ltd

Feb 2023 – May 2023

- Designed and developed a Python-based integration to automatically convert GitLab issues into corresponding Notion tasks.
- Automated task assignment and workflow updates, improving team efficiency and reducing manual coordination.
- Strengthened internal project tracking by streamlining issue management across development and documentation teams.
